

Benchtop Peel Optical Fiber Machine (XQ7510)

☆ Product Description:

XQ7510 is designed for stripping optical fiber coating, stripping length can be adjusted, using slide rails reduce the labor intensity, and ensure the consistency of optical fiber stripping, easy to use, stable and reliable, improve the stripping efficiency.

☆ Technical Specifications:

Parameters	Units	Value
Optical Fiber Specifications	μm	10/125, 50/125, 62.5/125, 100/140
Stripping Length	mm	2 ~ 36
Dimension	mm	130×60×40
Weight	kg	1.2

☆ Ordering Information:

Product Type	XQ7510
Applications	10/125μm, 50/125μm, 62.5/125μm, 100/140μm Optical Fiber Coating Stripping
Fiber Holding Blocks	Miller Pincers, Slide Guide Rail
